

Meet the Coach

About Me

I have a passion for people! I have been in the Early Childhood field for over 15 years. I received an Associates degree in Early Childhood Education from Fox Valley Technical College in 2010. I also received my Bachelors degree from the University of Wisconsin Milwaukee in Educational Studies in 2014. I recently became a Technical Assistance Trainer through the WI Registry.

Schedule

Email will be the best way to communicate as I will be working from home as well as in the building.

My office hours will vary to meet the needs of the teachers I am working with and to accommodate work responsibilities.

Personal Statement

I truly believe and live by the quote "Life is what you make of it." Eleanor Roosevelt I live by that quote because I believe that anyone is capable of anything that they put their mind to. Our minds are a powerful tool that can work for us or against us depending on the outlook. So for me positivity is key in being successful. In order to motivate and build capabilities in the lives of children and people, you have to believe and have faith in yourself. My job at Next Door is to collaborate with individuals to support their success and dreams!
