

# Meet the Coach

## About Me

As an Instructional Coach with the Charter School here at Next Door's 29th Street location, it is my mission to support teachers and students. I have been in education for 13 years. My experience as a classroom teacher for 8 years is a resource I often pull from while working with teachers. My passion is Early Childhood. I received my Bachelor's of Science from Alverno College and my teaching degree covers 3 year olds through 12 years.

## Schedule

Currently my schedule includes working with K4 & K5 teachers to meet the individual needs of each teacher. Coaching cycles will be scheduled with each teacher each month to support their goals. Our professional development is on-going during the school year and I participate in as well as facilitate many professional development trainings.

## Personal Statement

The Instructional Coaches use a variety of strategies in our coaching to support our teachers, children and families. In my work with the teachers, I use video recording with reflective practice along with other strategies to support the teacher's goals. To better support our teachers, children and families we are using more technology including Seesaw, The Creative Curriculum Cloud, Lexia, Khan Academy Kids and Khan Academy to increase our student outcomes.
