Meet the Teacher

About Me

I a mother of two and have been married 20 years. I tend to be an optimist and hold "the glass is half full" type of personality. I love sports, arts and crafts and reading. I am looking forward to traveling in the future as well. I have worked in several different ECE settings since 2008 which range from both family & group centers. My passion has always been to work with children from the ages of 3-5. I have been employed at Next Door for 3 1/2 years.

Personal Statement

I feel preschool children learn the best when they are able to receive info through several different approaches (seeing, hearing, touching, tasting and smelling). Learning through play develops their social, cognitive, physical and language development. It also allows a unique bond with both teacher and child. I feel each child has their own unique gift and way of learning and setting goals that is unique to each child is necessary for growth. With love, patience, consistency, and a positive environment, each child can reach their fullest potential.

Mrs. Tanya Donald
