

Meet the Teacher

About Me

I have been working at Next Door for the past five years with the toddler age groups between the ages of two to three years of age. I have been working with children for over ten years ranging from the ages of infancy to school age children.

I have gained a lot of knowledge and experience and love watching children grow into their true self and potential. My passion comes with making a difference in each child's life, development and learning. I strive to continue to work with children, help families and better my community.

Schedule

Monday - Friday

Personal Statement

"The purpose of life is not to be happy. It is to be useful, to be honorable, to be compassionate, to have it make some difference that you have lived and lived well."

- Ralph Waldo Emerson

My greatest accomplish in life is making a true difference in each of my student's life and aim to work side by side with the parents to help provide the necessary tools to help their children grow into great human beings. Somebody once believed in me and made me love education and learning and I strive every day to provide and do that in my student's life. My greatest passion is helping to make a difference where it matters, in the future generations of children.
