

Meet the Teacher

About Me

I have worked with elementary aged children for about 6 years now. I began in after school programming and a kids program at a Food Pantry where I taught children about the importance of making healthy food choices. I then lived in New Orleans and worked in a learning kitchen with K4-8th grade students guiding their journey to form healthy relationships with food. This will be my 4th year at Next Door as a kindergarten co-teacher. I always say – with each year, my students teach me just as much as I teach them.

Schedule

I'm here to support you and your child as we grow together throughout this year. Please feel free to reach out any time!
Monday - Friday 7:30 am - 4:00 pm

Personal Statement

I believe in educating the whole child – nurturing their hearts and souls is just as important as teaching their minds.

I love children's minds, ideas, and their absolute excitement for learning!
I can't wait to see what this year brings!
