HIGHLIGHTS

Routines and Experiences

nextdoor

Amyia, Jaylen and Curtis put the puzzles back into the correct slots after a few tries. They are all

helping one another
find the right fit!

29th St. - Room 10 - Toddlers

Look at children displaying STAR behavior!

Working together

to clean up and carrying the marker box
over to the shelf!

Capitol - Room 127 - Two year olds

Creative Curriculum Studies

nextdoor

Indica and Cattleya are matching the letters on the tree during our Tree study. We are also working on identifying the letter, making letter sounds, and **identifying objects that begin with the letter sounds.**

29th St. - Room 62 - HS3

Future arborists –
The children in 109 are having fun
observing real tree
bark and twigs with
magnifying glasses.

Capitol - Room 109 - HS3

Students are focused on

using small
motor control

and sticky tape to trace the subject
of their unit study on TREES!

29th St. - Room 215 - K4

nextdoor

Working together is an important part of choice time. Students are **learning to share, take turns, and communicate.**

Here, three boys were building a hotel in the block area.

Capitol - Room 201 - K4

Welcoming the new season by constructing
our homemade fall trees,
practicing identifying
shapes, and counting
how many we have on our projects!
29th St. - Room 133 - K5

Inspired by a book on insects,
some children examined
them under microscopes.
Others made insects
with modeling clay

– here is a cricket with legs for jumping.
Every Friday afternoon, K5 students study
a STEM topic.

Capitol - Room 228 - K5
