

# Meet the Teacher

## About Me

I started my career in Head Start at CDI Head Start on S. 35th street in 2019. On my 55th birthday and after working 30 years for the VA Medical Center, I decided to start a new journey and became a college student at Springfield College. I need one class to complete my first semester, and the only course available was the Early Childhood Education class. I took the class and enjoyed it, and continued to take the rest of the curriculum and completed four (4) years. I learned that loving children is not enough to teach them real love will lead you get the education necessary to prepare self to serve children.

## Schedule

Monday - Friday 8:00 am - 4:30 pm

## Personal Statement

Just know that a child will turn be what you model to them.
