

Meet the Teacher

About Me

After graduating with my bachelors degree in 2016, I worked as a Lead Toddler Teacher at KinderCare. During my experience there, I earned my CDA credential and went through the training for the Pyramid Model. At the end of 2018 I moved to Milwaukee from Oshkosh Wisconsin to continue my career working in early education as an early head start teacher at Penfield Children Center. In November 2019 I started my journey with Next Door as a Lead EHS Teacher.

Schedule

Monday - Friday 8:00 am - 3:30 pm

Personal Statement

I am a huge advocate for early childhood education. From my schooling and training I have learned that your brain is the most malleable from birth to 5, which is why I feel so strongly about starting learning habits, routines, social/ emotional awareness, and giving stability early on. I believe providing children with the proper tools to success early on can make a world of a difference in their overall development and life. I am here to make an impact on my community, and I know that starts with a very early age!
