

Meet the Teacher

About Me

Teaching has always been a passion of mine, even at the age of 7. Building better brains throughout my career has been such a journey that I am proud to have been apart of. Watching children grow and become better thinkers and using imagination to create things that only great minds can, is why I teach! Seeing the results of my own children, continues to inspire me to keep molding, building and pushing young thinkers to go further than most people think they would.

Schedule

Monday - Friday 7:30 am - 4:00 pm

Personal Statement

My vision for children in my care is to provide a productive environment that will enhance their basic skills, which will allow me to challenge them to become great critical thinkers and problem solvers. I have hopes that children will learn about their peers and the way they live, and learn how to build healthy relationships. Children will have a safe and nurturing environment, where they can grow and learn new ways to change the dynamics of their environment.
