

Meet the Teacher

About Me

I have a Bachelors of Science Degree in Early Childhood Education from UW-Milwaukee. I have taught children from ages 6 weeks through 12 years of age for 15 years. This is my seventh year teaching K4.

I enjoy reading, singing, being outside, and spending time with my husband, son JJ (5), and daughter Camryn (2).

Personal Statement

I believe that children learn best what they are comfortable and engaged in the classroom. I build strong relationships with the children and plan hands-on activities that keep their minds and bodies engaged. I provide a variety of activities and experiences that allow the students to explore, experiment, and think about the world around them. Every child is unique and brings something different to the classroom. I am excited to meet and work with your family!

Schedule

Monday-Friday 7:30 am- 4:00 pm
