

# Meet the Coach

## About Me

Hi! Glad to meet you! I am so excited to be going into my 6th school year as an Instructional Coach here at Next Door! I have over 30 years of experience working in the education field. I love my work and it is very satisfying to be making a difference in the lives of children and families. Outside of school, I enjoy spending time with my husband, our teenage children and our family/friends. We love watching movies while eating popcorn, playing games/cards and going on walks!

## Schedule

I love working with our K4 & K5 teachers in their classrooms. Our individualized coaching cycles are scheduled with each teacher to support their goals as well as the goals for the children in their classroom. Our professional development is ongoing during the school year and I participate in, as well as facilitate many professional development trainings.

## Personal Statement

I believe children learn best through guided play experiences.

"Play gives children a chance to practice what they are learning"

- Fred Rogers
