

Meet the Health Advocate

About Me

I have been working with children and families for over 6 years now including previous employment experiences. This will be my First School year as the Health Advocate Specialist role but have always worked in collaboration with the Health Team in my previous role as a Family Advocate. In my previous role I began servicing Head Start families (K3&K4) for the first 2yrs and then moving on to working with Early Head Start families. I enjoy mostly working with children 0-3 years old because everyday is something new. Watching them grow, develop and transition onto new chapters is my favorite part of Early Head Start. I also love creating new and lasting relationships with my families. Please do not hesitate to contact me with any Health related needs or questions. I look forward to servicing you all as your new Health Advocate.

Schedule

Monday - Friday 8:00 am - 4:00 pm

Personal Statement

Graduated from Mount Mary University with a Bachelors Degree in Human Behaviors and Justice with a Certificate in Peace Building. I love helping families and seeing kiddos grow up and develop new skills. I love playing Tennis, going to the movies and just having a good time.

I can help you with: Establishing care with Medical & Dental Providers, Connecting families with additional health resources in the community, Guiding families in advocating for any additional educational needs, CarSeat safety education/installation.
