Personal Statement

As a family advocate I look forward to engaging and involving families and children through activities. It is a passion of mine to serve children and families within my community, while promoting parent involvement as they support the growth and development of their child. My role is to help establish positive relationships with children and families, as well as assisting in anything that does not support or can hinder these values. My aim is to shoot for the moon and even if we miss we will land among the stars. I look forward to meeting all my families and starting this new but exciting journey with you all!
