About Me

I have worked with children from ages 6 weeks through 12 years of age for more than 13 years. Currently I have an Associates Degree in Early Childhood Education and an Infant and Toddlers Credential. I continue to attend various trainings yearly which pertain to the development and education of young children. A major focus area of mine is early literacy and social and emotional guidance.

Personal Statement

I believe that children learn best when they have built strong attachments, are engaged, and the activities that are planned are developmentally age-appropriate as well as playfully challenging, and there are a variety of experiences where the child can experiment and explore.

I love building relationships and partnerships that connect me with families to help nurture educate young minds. I very much look forward to working with you, your child, and your family.
