

I want to express my sincere sympathies to Charlie Kirk's family and all those impacted by today's terrible act of violence.

We learned today that an employee of Next Door Milwaukee expressed personal views about this event on the employee's personal social media page.

Because the employee's personal post does not reflect the views of our organization or our mission, and out of care for all employees and the families we serve, we are temporarily disabling comments on our social media accounts.

I will be meeting with our leaders and employees to address this matter, clarify policies and procedures regarding social media posts, and address the implications of posting views that do not reflect those of our organization.

Heather Mehring Grams, President of Next Door
